CITY OF WEST PARK

FREQUENTLY ASKED QUESTIONS

For
ITB 26-0210

1. Is certified 419 Bermuda acceptable?
Answer: Based on the intended use of this field (football / impact sport), the City is requesting Celebration Bermuda grass.
2. Do you want the subsoil blended with the existing field material after removing the grass?
Answer: Please refer to the Bid Form for detailed descriptions associated with the scope of work as well as the project specifications where applicable. The Lump Sum Fee proposal is expected to include all labor and material items as necessary to complete the project in its entirety (including properly established sod), ready for service and accepted by the Owner.
3. What are you trying to accomplish with the sub soil, better drainage or stability?
Answer: Please refer to the Bid Form for detailed descriptions associated with the scope of work.
4. Scope of work does not call for additional topsoil. Are you wanting imported topsoil?
Answer: Please refer to the Bid Form for detailed descriptions associated with the scope of work as well as the project specifications where applicable. The Lump Sum Fee proposal is expected to include all labor and material items as necessary to complete the project in its entirety (including properly established sod), ready for service and accepted by the Owner. All materials and procedures as recommended by the sod grower should therefore be accounted for. This may include topsoil as specified.
5. Could you please confirm the documents that are to be submitted back with the bid response? The ITB isn't clear as to which documents need to be executed and returned with the bid to be considered responsive. Thank you.
Answer: Please refer to Section 00200 Instructions to Bidders paragraphs 1. Bid Form and 2. Bid Guaranty.
